

Dear IT and Network Engineering team,

I am writing to apply for the Technical Network Specialist position at Bell. a soon-to-be French graduate with a B.U.T. in Network and Telecommunications, with a minor in Cloud, I am confident that my skills and interests align well with the role described in your job offer.

Throughout my academic career, I have been able to fuel my strong passion for networking and system administration, and I am particularly interested in cloud and traffic shaping technologies and believe that the job description matches my interests and overall direction of my career.

Additionally, I am willing to learn and adapt to the management work that may be required in this position.

I am excited about the opportunity to work with the largest high-tech team in Canada at Bell. Your team's focus on customer care and the quality of services it delivers is very appealing to me.

As a Technical Network Specialist, I would have the chance to work with the latest voice, video, and contact center solution technologies and be part of a team that is at the forefront of developing Bell's leading products and services.

I possess both theoretical knowledge with ToIP technologies such as Cisco Voice, and Contact Centre technologies, as well as hands-on experience with general networking and system administration technologies (ansible, VMWare, kvm) and hold vendor certifications such as CCNA, LFCS and Fortinet. I have strong analytical and problem-solving skills, which I will be able to employ to clarify, analyze, and investigate client needs, identify potential roadblocks, and develop solutions.

My knowledge of networking and system administration, combined with my strong command of English and French, make me a great fit this position.

Thank you for considering my application. I am excited about the opportunity to contribute my skills and experience to Bell and the largest high-tech team in Canada. Please find my resume attached for your review.

Sincerely,

Ruben Rouvière
